

H3ABioNet

Pan African Bioinformatics Network for H3Africa

IBT_2017

Introduction session - 'Welcome to the course!'

Outcomes:

- Participants will know the physical location of their training rooms
- Participants will meet and get to know their classroom staff and fellow classmates
- Participants will know how the IBT course will run
- Participants will be introduced to the course website, Vula, and Mconf
- Participants will understand the requirements for obtaining the course letter of completion
- Classrooms will create a classroom biography and upload it to Vula with a photograph so that the classrooms may begin to get to know each other.
- Optional – in addition to the written classroom biography to be submitted via Vula, classrooms may create a classroom video (instructions and templates will be provided)

Day Plan*

*Exact timings might vary depending on the number of participants in your IBT class
