# Get to know each other

## Activity 1 (10 minutes):

1. Get into pairs (or a group of 3 if there is an odd number of people). Pair with someone that you do not know very well, if possible.
2. Have a chat to get to know each other. Make sure that you find out at least 3-5 things about your partner (5 mins).
3. After 5 minutes of chatting, organise all your chairs into a circle/semi circle so that the whole group is sitting together.
4. Introduce your partner to the rest of the group (for example 'This is... s/he is... s/he enjoys...'). If your group is very small (only 2/3 people), then tell your partner what you remember about them from their description of themselves.
5. Important: classroom staff, get involved!
