Introduction to Bioinformatics online course : IBT

Kim Gurwitz

IBT Community

- The success of the course is based on developing a sense of community between classrooms
- Awareness that you are part of a larger community from diverse backgrounds all with a common interest in teaching and learning bioinformatics
- Easier to do this when you can put faces and a bit of context to your colleagues across the continent

Classroom Biography

- To facilitate this we would like each classroom to write up a short biography about yourselves and your institute and take a photograph of your team
- The short biography should be uploaded to the Vula forum together with the photograph as an attachment
- Each classrooms will be able to view every classrooms biography and photograph

Classroom Biography

- We have provided instructions and a template for generating the biography and uploading to Vula here:
 - ✓ IBT_2017 site -> Resources -> Week 1 – Introduction -> IBT_2017 introduction part 7 template - via Vula.docx
 - ✓ A single biography should be uploaded for each classroom – elect ONE PARTICIPANTto upload the biography and photograph to Vula on behalf of the classroom

Classroom Biography video - optional

If you would like to, you can create a VIDEO introducing your classroom (similar to 'meet the core team' video)

- We have provided instructions and a powerpoint template for generating the biography video here:
 - ✓ IBT_2017 site -> Resources -> Week 1 – Introduction
