

H3ABioNet

Pan African Bioinformatics Network for H3Africa

IBT Wrap up Session

Aim: To provide both IBT participants and IBT staff the opportunity to reflect on the IBT course as well as to identify and determine how to continue utilizing the IBT support structures, within and across classrooms. To provide information regarding H3ABioNet (including H3ABioNet tools and services, and events), local bioinformatics support, and where to find this information.

Learning outcomes:

- Participants and staff will reflect on what they thought about the IBT course - what they enjoyed and what they feel could be improved, and will be given the opportunity to provide this as anonymous feedback via a feedback survey
- Participants will reflect on their confidence to perform particular bioinformatics actions and compare this to their confidence in these actions at the beginning of the course
- Participants and staff will be able to explain what H3ABioNet is and what tools and services are available to them
- Participants and staff will be able to name the H3ABioNet node ambassador for their institution, and will know his/her role (only applicable if a particular classroom is affiliated to an H3ABioNet node)
- Participants and staff will know the bioinformatics activities and resources available at their local institution
- Participants and staff will have created a list of ways in which they can continue to utilize the IBT support structures after the IBT course.

Logistics:

Each classroom will follow the workshop day plan, which will prompt them to play pre-recorded lecture videos. These videos will contain instructions for each activity. This will be performed locally in the classrooms with the exception of part 7 which will run in Mconf (video conferencing platform).

Schedule:

Time	Activity	Resources *
Reflection		
10:30 CAT	Introduction	Video: Part 1
10:35 CAT	The good, the funny, and the frustrating	Video: Part 2

10:55 CAT	IBT Highlights	Video: Part 3
11:20 CAT	Self-reflection - how confident are you to...?	Video: Part 4
11:40 – 12:15 CAT BREAK		
Bioinformatics Resources		
12:15 CAT	H3ABioNet overview	Video: Part 5
12:30 CAT	What's happening at your institution?	Video: Part 6
After IBT		
13:15 CAT (in Mconf)	Brainstorming - how to stay in touch	Video: Part 7
14:00 CAT	Feedback	Video: Part 8
14:20 CAT	Thank you!	Video: Part 9
14:30 CAT END
